Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ohara et al (6148474) in view of Tapp (4393536).

- a. Ohara et al discloses the claimed invention except for a retainer. Tapp shows it would have been to have substituted the cover of the main body with a retainer (22) with the cover of Ohara et al to hold the wand assembly because one of ordinary skill in the art would have known to switch these element for one another to yielded predictable results at the time of the invention.

3. Claims 1-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nighy (20020189046A1) in view of Tapp (4393536).

- b. Nighy discloses the claimed invention except for a retainer. Tapp shows it would have been to have substituted the cover of the main body with a retainer (22) with the cover of Ohara et al to hold the wand assembly because one of ordinary skill in the art would have known to switch these element for one another to yielded predictable results at the time of the invention.

Response to Arguments

4. **Applicant's arguments filed 3/17/08 have been fully considered but they are not persuasive.**

5. **Applicant states that the 103 rejections are invalid.**

c. The applicant does not claim a channel in claim 1 so that argument is off point. The limitation around the vacuum cleaner is relative which part in which way and orientation is the applicant going around the cleaner. This means it does go around because you have multiple point on the body that this could go around. Applicant is arguing if one of ordinary skill in the art would combine the two vacuum cleaners and to have a retainer for the hose yes. It is not like your putting an egg beater and toaster together. If you making cars you consider all car and the same for vacuums. In the information age people are searching everywhere art and looking at everything so one of ordinary skill in the art would not leave that rock unturned.

d. The rejections are still valid and the rejections stand. Applicant is going have to include some real substance in the claims with recited structure because at present the claims are broad.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
